

Procedure for Sun Pharma Excellence Awards

A pre-decided set of individual colleges identified by Sun Pharma are permitted to participate in the Sun Pharma Excellence Award Programme. The colleges are required to select two students each year who best meet the pre-defined selection criteria. Individual committees set up at the respective colleges can coordinate the selection process.

Once the recipients are selected, the college notifies Sun Pharma. The names of the winners of the Sun Pharma Excellence Award are then communicated to the Principals/Deans of the identified colleges.

The winner and runner up also receive a personalised certificate along with the cash prize. A formal award ceremony is held at the college during the convocation.

The Sun Pharma Excellence Award is not a competitive programme. Hence, individual students cannot submit applications directly to Sun Pharma. The respective colleges select the award recipients from a pool of eligible students.

Selection criteria: The selection criteria is as follows:

1. The recipient should be a final year student of the MBA in Pharmaceutical Management programme.
2. The recipient should demonstrate high professional motivation and a strong intent to join the pharmaceutical industry upon his/her completion of the MBA programme.
3. The recipient should be in the academically top 30% of his/her class.
4. The recipient's attendance should not be less than 85%.
5. Students involved in scholarly/extra socio-cultural activity or having any other non-academic achievement in the institution may be given special consideration, provided all the other criteria are met.

Programme information: The Deans/Principals/Teachers of colleges offering an MBA programme in Pharmaceutical Management may seek additional information about the Sun Pharma Excellence Award by contacting:
